The above work is a delineation of the scenes and incidents connected with the imprisonment, in 1852 of Manuel Pereira, steward of the British brig Jan son, in the jail of Charleston, S. C.

The following notice of this work is copied from the National Era of February 17:

"The above is the title of a work now in press founded upon that infamous statute of South Carolina by which her citizens claim a right to imprison colored scames, of all nations, and even those cast upon their shores in distress. We have perused the book in advance of its publication, and find that it gives a life-like picture of Pereira, the vessel in which he sailed the storms she encountered, and her wrecked condition when brought into the port of Charleston, S. C.; to gether with the imprisonment of Pereira, several seamen belonging to the New England States, and two French seamen; the prison regimen, character of the Charleston police, and the mendacity of certain officials, who make the law a medium of pseulation. The work is replete with incidents of Southern life and character, pointing Southerners to the things that call for correction at their own hands, with a force that cannot be mistaken. The work is written by one who has taken a prominent part in the affeirs of the South, and cannot fail to interest alike the general reader, commercial man, and philanthropist."

Extract from the Preface:

"The books are intended to be books of instruction, rather than of more amusement; and, in perusing them, the reader may feel assured that all the information which they contain, not only in respect to the countries visited, and to the oustoms, usages, and modes of life that are described, but also in regard to the general character of the incidents and adventures that the young travellers meet with, is in most strict accordance with fact. The main design of the narrative is thus the communication of useful knowledge; and everything which they contain, except what is strictly personal, in relation to the actors in the story, may be depended upon as exactly and scrupulously true." PROSPECTUS OF THE PROBIBITIONIST.

vigorous enforcement of Prohibitory Laws when obtained.

Its Firld.—Dealing with general principles, with arguments alike applicable to every community where the traffic exists and with facts intustrative of these arguments and principles, the paper will be National in its scirculation and influence. Such is our aim and expectation. We desire to see the Principle of Prohibition established in State after State, till it becomes the recognised policy of the National in its enterprise of Prohibition established in State after State, till it becomes the recognised policy of the Nation. It is our ambition to bear a part in this great work, and to this end The Prohibitionship is established, not as the organ of a society merely, but of a Great Reformatory Movement.

Its Necessity—The existing Temperance Journals have little, if any, circulation outside of the Temperance Ranks. Their price almost necessarily restricts them to the friends of the cause. The Prohibitorist is designed for circulation (instead of tracts) among the indifferent and the hostile. For this purpose it is put at a price so low as to enable the friends of Temperance in every school district, by combined action and at an inconsiderable expense, to place a copy in each family that will consent to receive it.

Such a Paper is demanded by the Farming Community.

The publishers confidently believe that the agriculturists of this country are becoming too much awake to the demands of their own calling to be longer satisfied with the slow monthly issues of a paper professedly devoted to their interests, or to trust alone to the irresponsible extracts in a "farmer's column," so popular just now in papers chiefly devoted to business, politics, or literature; and they look for the united support of all the intelligent farmers of this country in their continued effort to furnish a weakly paper of a high and reliable character, which shall be progressive, and at the same time cautious and conservative in all its teachings.

Essentially an Agricultural Paper.

The Agriculturist will not depart from its legitimate sphere to eatch popular faver by lumbering up its pages, with the silly, flotitious lite ature, and light, miscellaneous matter of the day; it has a higher aim; and a small part only of its space will be devote

An Independent Journal.

The American Agriculturist stands upon its own merits; and the truthfulness, scal, and ability, which it brings to the support of the interests of the farmer. It is untrammeled by any collateral business connections whatever; nor is it the organ of any clique, or the putting machire of any han or thing. Thoroughly independent in all points, its ample pages are studiously given alone to the support and improvement of the great agricultural class.

Editorial Department.

The American Agriculturist is under the editorial supervision of Mr. A. B. Allen, its principal editor for the past ten years, and Mr. Orange Judd, A. M., a thoroughly practical farmer and agricultural chemist.

a thoroughly practical farmer and agricultual chemist.

They will be assisted by Prof. Nash, who has been for a long time one of the most successful farmers of New England, and is now Agricultural Professor of Amberst College; Rev. Wm. Clift, widely known as a pleasing and instructive writer on gardening and other departments of practical agriculture, and, in addition to these, a number of other en agricultural writers.

All the editors are men practically experienced in their profession, each of whom can handle the Plow as well as the Pen.
